All-Hazards WMD HazMat Refresher

PASSAIC COUNTY HAZWOPER REFRESHER

This Title 19-certified course satisfies OSHA mandates by providing First Responders with their annual HAZWOPER Refresher training. The class combines both our Rad/Nuc and Chem/Bio classes together. Review how to respond safely to such events, utilize a variety of survey meters and discuss current events happening in this domain around the Nation.

LUNCH WILL BE PROVIDED

This course combines lecture, group activities and exercises, which will utilize cutting-edge technology to allow you to see exactly what a WMD event will be like. Participants are welcome to bring their own instruments for operational review.

This course meets or exceeds the requirements of **Title 19 Section 1910.120(q)(8) CFR** and is certified through CSTI

If you have any questions, or to request accommodation, please contact us at contact@restllc.us or on our website.

L.E.O. Radioactive Weapon Awareness

INTENDED AUDIENCE

- LAW ENFORCEMENT OFFICERS-ALL RANKS
- L.E.A. COMMUNICATIONS STAFF
- L.E. ACADEMY STAFF

The 'Blue Canaries'. How tired are you of hearing that term for Law Enforcement Officers when discussing HazMat or WMD incidents? And even more insulting than the name is the fact that it's true. And when it comes to radiation events, it's worse. There are only two types of First Responders out there: those with radiation meters, and those without. If you are one of the ones who DON'T have a meter, this class is for you. Come learn how to make yourself safer when these events occur.

If you have any questions, or to request accommodation, please contact us at contact@restllc.us or on our website.

EMS Radioactive Weapon Awareness

INTENDED AUDIENCE

- EMTs, PARAMEDICS, SUPERVISORS
- CITY, SUBURBAN, SMALL TOWN
- EMERGENCY AND TOWN MANAGERS

Did you know you are exposed to natural radiation every day of your life? Did you know you are most likely exposed to man-made radiation at least one per shift (and I'm not referencing X-Rays). In the event you are exposed to man-made radiation due to a WMD event, where does the EMS Community stand from a contamination harm and spread standpoint? How do we limit all of your region's ambulances from becoming contaminated? If these questions intrigue you, please attend our class. We will discuss all of these topics and more!

If you have any questions, or to request accommodation, please contact us at contact@restllc.us or on our website.
